

AGRICLAY™ 5C

Essential Trace Elements Defensive Boost

 YUNITE Hydro Mineral Delivery Technology™

AGRICLAY 5C is a combination of trace nutrients that increases plant growth, health and yields. Copper is also very important fungal control. Soil nutrient studies have shown that many areas are lacking in the trace nutrients included in AGRICLAY 5C. AGRICLAY 5C helps create increases in cation metals that improve the efficacy of fungal protectant programs. AGRICLAY 5C creates a plant that is healthy and an environment that is unhealthy for fungal spores.

Ingredients: Nitrogen (N) 5%, Cooper (CU) 2.6%, Manganese (Mn) 0.168%, Zinc (Zn) 1.848%. **Guaranteed Analysis.** **YUNITE Delivery mechanism:** Silica 1.012%, Aluminum 0.282%, Magnesium 0.045%, Calcium 0.184%, Iron 0.096%, Titanium 0.014% Phosphorus 0.002%, Sodium 0.004%, Potassium 0.080% ZETA Potential -13 mV

DIRECTIONS:

Row Crop Application – 16 to 32 oz/acre (1.2L to 2.25L per Hectare) applied with fungicides and as needed based on environmental disease, and nutrient requirements of the crop.

Field Crop Application – 16 to 32 oz/acre (1.2L to 2.25L per Hectare) applied with fungicides and as needed based on environmental disease, and nutrient requirements of the crop.

Tree Crop Application – 16 to 32 oz/acre (1.2L to 2.25L per Hectare) applied with fungicides and as needed based on environmental disease, and nutrient requirements of the crop. 2 to 4 oz (60 to 120 ml) per tree as needed. Seek advice for tree size, etc.

Organic Crop Application – This product can be used as a supplement to your fungicidal program. This product can be used with sulfur and lime products. This product is to be used at 48 to 80 oz per acre (3.6 to 5.8 L per Hectare) per application. This product can be applied up to 8 times per year. Soil copper levels need to be monitored when applying any copper product.

For use not addressed in directions, please contact Arclay's representative.

AGRICLAY 5C is compatible with all the products Arclay has experienced. However all producers have unique conditions and products combination. We recommend that the combinations be jar tested prior to combining materials in the tank. Also refer to other product labels to ensure compatibilities

Notice: 1. Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions. No one, other than the officer of Seller is authorized to make any warranty guarantee or direction concerning this product. 2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from handling, storage and use of this product is limited to replacement of product or refund of purchase prices.

Protective Equipment: Rubber Gloves and Safety Glasses.

Caution: Keep out of reach of children. DO NOT FREEZE
